

Culturelle Daily Probiotic - Health Fact Sheet

PRODUCT OVERVIEW

Culturelle Daily Probiotic delivers 50 billion CFU (Colony Forming Units) of clinically studied probiotic strains to support digestive health, immune function, and overall gut microbiome balance.

SERVING SIZE: 1 capsule daily

NUTRITIONAL PROFILE PER SERVING

Total Probiotic CFU: 50 Billion

Probiotic Blend:

- Lactobacillus rhamnosus GG (LGG): 15 Billion CFU
- Lactobacillus acidophilus: 10 Billion CFU
- Bifidobacterium longum: 10 Billion CFU
- Bifidobacterium lactis: 8 Billion CFU
- Lactobacillus plantarum: 7 Billion CFU

Prebiotic (Inulin): 200mg

KEY STRAINS AND BENEFITS

Lactobacillus rhamnosus GG (LGG) - 15 Billion CFU

The world's most clinically studied probiotic strain with over 1,000 published studies.

- Proven to reduce duration and severity of infectious diarrhea
- Reduces antibiotic-associated diarrhea by up to 60%
- Strengthens intestinal barrier function
- Competes with pathogenic bacteria for intestinal attachment sites
- Supports immune system modulation

Lactobacillus acidophilus - 10 Billion CFU

- Produces lactic acid and bacteriocins that inhibit harmful bacteria
- Supports lactose digestion
- May reduce symptoms of IBS (Irritable Bowel Syndrome)
- Supports vaginal microbiome health in women

Bifidobacterium longum - 10 Billion CFU

- Dominant in the large intestine
- Reduces intestinal inflammation
- Supports immune response modulation
- May reduce allergy symptoms
- Involved in synthesis of B vitamins

Bifidobacterium lactis - 8 Billion CFU

- Enhances immune response in elderly populations
- Reduces constipation and improves bowel regularity

- Supports gut barrier integrity

Lactobacillus plantarum - 7 Billion CFU

- Highly adaptable strain that survives stomach acid well
- Reduces bloating and gas
- Anti-inflammatory properties
- Supports breakdown of plant-based foods

PREBIOTIC FIBER (INULIN) - 200mg

Inulin is a soluble dietary fiber that acts as food for probiotic bacteria. Supports the growth and activity of beneficial Bifidobacterium strains. Enhances overall probiotic efficacy.

GUT-IMMUNE CONNECTION

Approximately 70% of the immune system resides in the gut-associated lymphoid tissue (GALT). Beneficial gut bacteria stimulate production of secretory IgA (sIgA), the primary immune defense of mucosal surfaces. Maintaining a healthy microbiome is therefore directly linked to systemic immune function.

CLINICAL EVIDENCE

- LGG shown in multiple meta-analyses to significantly reduce diarrhea duration
- Probiotic supplementation demonstrated to reduce upper respiratory infections
- Evidence for reduction of eczema risk in infants born to supplementing mothers

FORMULATION NOTES

- Delayed-release capsule survives stomach acid
- Shelf-stable — no refrigeration required
- Vegetarian capsule
- No artificial colors, flavors, or preservatives
- Gluten free, dairy free, soy free

ALLERGEN INFORMATION

Free from major allergens. Produced in a GMP-certified facility.

RECOMMENDED USE

Take 1 capsule daily with or without food. For best results, take consistently at the same time each day. Results typically noticed within 1-4 weeks of consistent use.

STORAGE

Store at room temperature below 77°F (25°C). Keep away from humidity and direct sunlight.
